# European MIC Webinars – Spring Program 2021

Date*	Speaker (institution)	Working titles - <i>updated Jan 7 2021</i>
Feb. 23	Satoshi Wakai (Japan Agency for Marine-Earth Science and Technology)	<i>Introduction to MIC research in Japan</i>
March 9	Sabine Doddema, Eelco Trietsch, Jentina Schuurman and Elsemiek Croese (Microbial Analysis)	<i>MIC in Drinking Water Pipes</i>
March 23	Kathy Buckingham and Richard Eckert (DNV GL)	<i>Metallurgy and Materials Testing for Microbiologists: What you need to know</i>
April 13	Jo Philips (Aarhus University)	<i>Acetogenic bacteria and their role in microbial induced corrosion</i>
May 11	Guangming Jiang (University of Wollongong)	<i>Performance and mechanisms of a novel and highly corrosion-resistant bio-concrete for wastewater infrastructure</i>
May 25	M.A. Javed, W.C. Neil and S.A. Wade (Swinburne University of Technology & Defence Science and Technology Group)	<i>Microbially influenced corrosion of stainless steel by sulphate reducing bacteria: To be, or not to be?</i>

\*) Starting time is 2:30 pm Copenhagen/Berlin time zone (<https://www.timeanddate.com/worldclock/denmark/horsens>)

# Workshop: Panel, Pitch & Popcorn

June 22 afternoon European time zones

- Panel discussion with our authors this spring
- Pitch of ideas from the network (2-3 min format) or lean back and enjoy some popcorn
- Discussions on a new Doctoral Network on MIC
- Latest news on COST Action submitted 2020

Interested?
